Initial update from debrief:

4 people in the hot zone. 3 are unresponsive. 1 is "unaccounted for"

The rest of the site has just been pronounced all clear.

The only site still in decontamination is the hot zone. A site where a insecticide is made. This is where the release occurred. No explosion.

Medical personnel are waiting for the zone to be decontaminated before they can attend to the 3 unresponsive.

The general consensus around here is the release didn't make it to the closest neighborhood over a mile away.

Air monitoring hasn't picked up any detections.

No official word as to caused the release.

Here are all the contacts I have so far for the site.

EPA is the FOSC for the response so please send all updates to both Jhana Enders, who will assume command when she arrives on scene, and me.

Jhana, I spoke with Matt Walter , Sector Houston, and requested them to get eyes on scene from a federal perspective until you arrive.

The 24hr number at Sector Houston is 281-484-4855.

Thanks
